

To Whom It May Concern:

Management agrees to installation of hardware by Comcast where necessary to provide services for our tenants. Management requires that all installations adhere to our standard guidelines.

Cable installation guidelines:

1. All exposed cable wires must only be installed in the most inconspicuous locations possible and on the rear of the building whenever possible.
2. Exposed cable wiring must be installed in a clean and organized manner.
3. Where there is existing cable in the building, management requires that existing cable be used, instead of adding to the visible cable.

Please contact us with any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Gabriella Fierro". The signature is fluid and cursive, with a large initial "G" and a long, sweeping tail.
